02 Moolank Identity

MOOLANK 5 · CORE SELF

You are a natural problem-solver and the most adaptable person in the room — born with the power of Earth-Mercury.

From childhood, you have had an unusual ability to handle crisis, find solutions, and adapt to changing situations faster than anyone around you. You think on your feet. You communicate clearly. You have a natural intelligence that connects dots that others miss.

Strength: Your greatest strength is your versatile intelligence, crisis management ability, and communication clarity. When Mercury energy flows well, you are the person everyone calls in a problem — and you deliver.

Watch: Your greatest challenge with Mercury excess is a workaholic mind that constantly demands productive engagement. This creates a pattern of overworking, taking on too many problems, and difficulty switching off.

Karma: The universe has given you the gift of intelligence and adaptability — it asks in return that you use it honestly and helpfully. Mercury karma is immediate: dishonesty in communication creates instant confusion in your own life.

03 Bhagyank Identity

BHAGYANK 7 · DESTINY

Your destiny path is the path of the spiritual seeker, the intuitive, and the karmic clearer.

Ketu has written a deeply spiritual destiny for you — one that moves through cycles of karmic learning, spiritual insight, and service.

Destiny: Your ultimate destiny is spiritual — in the deepest sense. The more genuinely you serve, the more powerfully your own life is protected and guided.

When aligned: When your Ketu karma is aligned — when you respect spiritual figures, regularly feed dogs, and live with integrity — Ketu provides extraordinary intuitive guidance and protection.

When misaligned: When Ketu karma is violated — through disrespecting saints, harming animals, or engaging in fraud — Ketu creates confusion and karmic rebound.

Axis Relationships

Only the difference between axis partners matters — equal high values = balanced (ideal). The effect below reflects the real body & mind state.

Water-Fire Axis

IMBALANCED

1 · Water (Sun)
2x · 100% · imbalanced

vs

9 · Fire (Mars)
3x · 150% · imbalanced

Dominant: Fire · Gap: 50%

Fire slightly dominant — mind response rate slightly reduced. Minor introvert shift — prefers less talking than usual. When angry, analysis ability dips momentarily. Overall functional personality with minor corrections needed.

Jupiter-Venus Axis

ONE MISSING

3 · Soft Wood (Jupiter)
1x · 50% · balanced

vs

6 · Yellow Metal (Venus)
0x · 0% · missing

Dominant: Jupiter · Gap: 50%

Good social support and opportunities exist, but money does not stay. Earns through connections but savings remain low — expenses on others and unwanted items. In business, gets clients easily but money slips away. Stingy with self but spends on others due to social pressure. Luxury lifestyle dreams remain unfulfilled despite having opportunities. Ideal personality for social roles — but financial discipline is the weakness.

Rahu-Ketu Axis

ONE MISSING

4 · Hard Wood (Rahu)
0x · 0% · missing

vs

7 · White Metal (Ketu)
1x · 50% · balanced

Dominant: Ketu · Gap: 50%

Good intuition and inner guidance exist — handles sudden life changes with maturity. But cannot use mind smartly in practical execution — weak planning, poor strategy. Career instability — frequent job changes due to inability to structure work. Can sense the right path intuitively but cannot create a practical plan to reach there. Low interest in technology, IT, or internet-based work. Struggles in leadership or management roles that require structured thinking.

Standalone Elements (2 · 5 · 8)

2 · Earth-Moon (BALANCED): Emotionally stable — handles life ups and downs calmly. Inner peace, control over emotions. Maintains trust and harmony in relationships. Handles stress with calmness. Mind remains calm even during challenges.

5 · Earth-Mercury (BALANCED): Sharp intelligence — strong problem-solving skills, adapts easily to new situations. Balanced practical communication. Satisfied and content personality. Handles practical challenges with ease.

8 · Earth-Saturn (MISSING): No discipline structure — lacks patience, gives up too quickly. No savings habit, poor financial discipline. Avoids responsibilities, delays important tasks. Life feels unstructured and chaotic. Struggles with authority and rules.

05 FEAT Theory ABC Rule

Golden Statement

GOLDEN STATEMENT RULE ACTIVE (CRITICAL RED FLAG): Element 9 (Fire / Mars (Mangal)) is critically overloaded (count=3, concentration=150%). This element causes 95% of life problems. Remedy: DONATE items of Element 9 (Fire). Main Principle is BLOCKED by this overload.

Moolank Element: Earth-Mercury — not activated

Bhagyank Element: White Metal — not activated

Critical Element: Fire

Golden Statement Rule — ACTIVE (Critical Red Flag)

What this rule means

"Golden Statement" does not mean something good has happened. In FEAT Theory ABC this is the name of the single biggest warning your birth grid can give. When this rule is active, it is pointing at the one element that sits behind most of your repeating problems.

The Golden Principle

Whenever the concentration level of any element in your body rises higher than both your Moolank and your Bhagyank concentration, a critical imbalance is created.

In your grid

Element 9 (Fire) stands at 150% — higher than both your Moolank 5 (Earth-Mercury) and your Bhagyank 7 (White Metal). That makes Fire the element running your life, even though it was never meant to lead.

What it is doing to you

Your true Moolank personality is being suppressed by Fire energy. The world meets the Fire version of you, not your authentic self. This is the primary root cause of a career ceiling, relationship mismatch, and blockages that seem to have no explanation.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

What happens when this imbalance occurs

Weakening of the Body — The highest element starts overpowering your system, draining physical and mental energy.

Disturbance in Five Elements — All other elemental concentrations are affected, leading to instability in personality and decision-making.

Loss of Original Identity — Your natural qualities as per your Moolank weaken, and you start reflecting traits of the excessive element instead.

Negative Personality Development — The excessive element dominates behaviour, often showing its negative side in your thoughts, emotions and actions.

Loss of Universal Support — The Universe stops supporting your growth until you reduce the concentration of that excessive element to a balanced level.

Health Problems — Element-specific health issues begin to appear — excess Fire may raise blood pressure, excess Water may bring bone or heart trouble.

Life Struggles — Career blocks, relationship troubles, and recurring failures linked to that element's imbalance become frequent.

Action: Remedy this element FIRST — before every other remedy in this report. The work here is to REDUCE its concentration, not raise it: donate items connected to Fire. Rudraksha is never used for an element that is already in excess — it is for your missing elements.

The day this element comes down to a balanced level, the rest of this report begins to work. Until then, every other remedy gives only partial results.

Mobile Number — 7880564948

LUCKY

Total: 59 · **Freq:** 5 · **Planet:** Mercury (Budh) (Earth-Mercury)

This mobile number channels Earth-Mercury (Mercury (Budh)) energy. Mercury-5 is ALWAYS BENEFICIAL regardless of grid status. Increases satisfaction rate, boosts mind utilisation efficiency, makes the person solution-oriented and a better decision-maker. Turns ordinary workers into workaholics in the best sense - mind stays active and productive. Key life areas it shapes: Intelligence, problem-solving, satisfaction, work ethic, mind efficiency, crisis management, nervous system.

FREQUENCY 5 - SPECIAL RULE: ALWAYS BENEFICIAL — Frequency 5 (Mercury/Earth) is unique in FEAT Theory ABC - it is the ONLY frequency that is beneficial regardless of how much it already exists in your birth grid. It directly increases satisfaction rate, mind utilisation efficiency, and decision-making quality. Grid currently shows 50% for element 5 - adding more through this mobile number only adds mental sharpness, not imbalance. This mobile number is working powerfully in your favour.

Mobile Number 2 — 8674827268

NEUTRAL

This mobile number channels Hard Wood (Rahu) energy. Rahu energy sharpens analytical thinking, planning ability, and technology-related skills. Long-term vision improves. Key life areas it shapes: Analytical thinking, planning, digital skills, unconventional ideas.

NEUTRAL Frequency - Acceptable (Element Missing from Grid) — Frequency 4 (Hard Wood) is neither lucky nor enemy, and this element is MISSING from your birth grid. The mobile number causes no harm and is acceptable to keep - no major issue. Upgrading to a Lucky frequency (5, 6) would actively support your Moolank and Bhagyank every day.

Vehicle Number

NEUTRAL

Total: 12 · **Freq:** 3 · **Planet:** Jupiter (Guru) (Soft Wood / Air)

This vehicle number channels Soft Wood / Air (Jupiter (Guru)) energy. Jupiter energy expands social network, brings mentors, increases opportunities and optimism. Learning and spiritual growth are supported. Liver health improves. Key life areas it shapes: Social connections, mentors, opportunities, learning, expansion, liver.

NEUTRAL Frequency - Element Already Present, Upgrade Recommended — Frequency 3 (Soft Wood / Air) is neither lucky nor enemy, and this element is ALREADY present in your birth grid. The vehicle number is not adding a missing energy - it only duplicates an element you already have, without aligning to your Moolank/Bhagyank. Per FEAT Theory, change to a Lucky frequency (5, 6) so daily vibration supports your core numbers instead of repeating an existing element. Concentration impact: this vehicle number also carries Element 3 (Soft Wood / Air) energy, adding about 50% and pushing this element from 50% toward roughly 100%. At this raised level the element turns excess: Over-activation causes over-confidence, weight gain, financial overextension, and blind optimism.

House Number — 3

NEUTRAL

Total: 3 · **Freq:** 3 · **Planet:** Jupiter (Guru) (Soft Wood / Air)

This house number channels Soft Wood / Air (Jupiter (Guru)) energy. Jupiter energy expands social network, brings mentors, increases opportunities and optimism. Learning and spiritual growth are supported. Liver health improves. Key life areas it shapes: Social connections, mentors, opportunities, learning, expansion, liver.

NEUTRAL Frequency - Element Already Present, Upgrade Recommended — Frequency 3 (Soft Wood / Air) is neither lucky nor enemy, and this element is ALREADY present in your birth grid. The house number is not adding a missing energy - it only duplicates an element you already have, without aligning to your Moolank/Bhagyank. Per FEAT Theory, change to a Lucky frequency (5, 6) so daily vibration supports your core numbers instead of repeating an existing element. Concentration impact: this house number also carries Element 3 (Soft Wood / Air) energy, adding about 50% and pushing this element from 50% toward roughly 100%. At this raised level the element turns excess: Over-activation causes over-confidence, weight gain, financial overextension, and blind optimism.

Financial Breakthrough Years — Venus (6) — Yellow Metal Is Your Lucky Element

Venus (6) — Yellow Metal is both MISSING from your birth grid AND is your Lucky element. When the universal year number matches this element, the universe actively supplies your most needed financial energy. These are your highest-probability windows for major financial decisions, business launches, salary negotiations, and investments. A Year 6 (Venus (6) year) is a financial breakthrough window. Track year numbers: add all four digits of any year and reduce to a single digit.

Marriage Delay Pattern — Venus Missing

Venus (6) absent from birth grid. Romantic opportunities tend to arrive but consistently fail to convert into committed marriage. This delay is not a personal failing — it is an elemental absence that must be built through consistent remedy practice.

07 Lucky, Enemy Numbers & Favourable Dates

Lucky Numbers

5 6

Use these numbers for mobile, vehicle, name, house and account numbers.

Neutral Numbers

2 4 7 8 9

These are safe but not specially beneficial — usable when lucky numbers are not available.

Favourable & Unfavourable Dates

Lucky (5): 5, 14, 23

Lucky (6): 6, 15, 24

Where to Use Lucky Dates
Use your lucky dates for: starting a new business, signing agreements & contracts, job interviews, marriage & engagement ceremonies, vehicle/property purchases, investments & financial decisions, important travel, launching new projects or products, filing legal/ government documents, and shifting to a new home or office.

08 Career Analysis

Master Verdict

SERIOUS_CHALLENGE

Multiple career challenges active. Key issues: Golden Statement active — career hijacked by Element 9; Career blockage: VERY_HIGH (70-82%). Both Job and Business Are Viable is still the recommended direction. Priority: Follow the action plan below — Rudraksha + karma correction + element balancing. This is a correctable pattern, not a permanent condition.

Destiny Path: Deep Research, Spiritual Service & Mastery

Combined Career Domain (FEAT)

Grid: Moolank & Bhagyank balanced — combined direction.

Bhagyank 7 — Ketu · Purpose Field

Job: researcher · astrologer · psychologist · surgeon · investigator/intelligence officer · healer

Business: spiritual/occult practice · astrology-numerology consultancy · healing centre · research lab · private-investigation agency · alternative medicine

Moolank 5 — Mercury · Working Style

Job: accountant/CA · lawyer/advocate · marketing manager · banker · sales head · analyst · writer

Business: brokerage · law firm · marketing agency · content/book publishing · logistics · e-commerce · financial services · insurance/mutual-fund · problem-solving startups

Strategist / Dealmaker across Research & Spiritual

Job: Finance / accounts lead in research & investigation · Marketing / sales head in astrology & occult · Business consultant in psychology & healing · Legal-practice (advocate) in precision surgery · Analyst / dealmaker in intelligence & detective

Business: Trading / brokerage for research & investigation · Marketing / media agency for astrology & occult · E-commerce / logistics venture for psychology & healing · Financial / insurance services for precision surgery · Problem-solving startup for intelligence & detective

Connected But Cashless — Opportunities Without Financial Return

MODERATE-HIGH RISK

Jupiter (3) balanced = excellent social network, genuine mentors appear, opportunities flow continuously. Venus (6) MISSING = opportunities consistently fail to convert to financial gain. Universally liked, trusted, relied upon — but consistently underpaid, undervalued, overworked. Works hard, delivers results, praised by all — paid below market value always. NGO / Politics / Spiritual guidance — fields where recognition matters more than payment — suit naturally.

Strength: Excellent network, genuine mentors, deep social capital, trusted community leader.

Watch: Cannot translate social capital into financial capital. Most financially undervalued profile in FEAT.

09 Financial Status

Verdict: STRUGGLING

Financial Score: 41/100 (STRUGGLING). Element 6 (Venus) MISSING — primary wealth blockage. Element 8 (Saturn) MISSING — no savings discipline. 11th Lord Moon (Chandra) in House 6 (Moderate — money through struggle and service).

Money Elements

Moon (Chandra) — Earth Moon — BALANCED · EMOTIONAL MONEY RELATIONSHIP — Stability, security feeling

Moon balanced — healthy emotional relationship with money.

Jupiter (Guru) — Soft Wood — BALANCED · EXPANSION — Opportunities, mentors, banking, growth

Jupiter balanced — good opportunities and mentor support for wealth.

Venus (Shukra) — Yellow Metal — MISSING · PRIMARY MONEY ELEMENT — Earning capacity + Wealth retention

Element 6 (Venus) is MISSING from your birth grid. This is the single biggest financial challenge. You CAN earn money — sometimes even large amounts — but HOLDING it is extremely difficult. Money slips through your fingers through unexpected expenses, bad investments, lending to wrong people, or simply poor financial discipline. This pattern repeats throughout life until Venus energy is corrected.

If your spouse has Element 6 balanced in their birth grid, they can manage the household finances effectively. In this case, let your spouse handle savings, investments, and major financial decisions. If spouse also has Element 6 missing — financial struggle will be severe for the entire family.

Saturn (Shani) — Earth Saturn — MISSING · SAVINGS DISCIPLINE — Long-term wealth building + Patience

Element 8 (Saturn) MISSING — No natural savings discipline. Impulsive spending pattern. Cannot build long-term wealth. Even good income gets spent quickly without structured savings.

Mars (Mangal) — Fire — AXIS_BALANCED · EARNING DRIVE — Aggression, property, real estate

Mars balanced — healthy earning drive and property potential.

11th House — Effect on Income

Earning drive — 11th lord's element: Moon (Chandra)

Marak planets affecting income

No Marak planet sits in or aspects the 11th house.

Planets supporting income

Venus (Shukra)

Sits in the 11th house

Saturn (Shani)

Aspects the 11th house from house 5

Earning drive is good

The 11th lord is Moon (Chandra) and its element 2 is present and balanced in your grid. The earning drive is steady — money has a channel to come through and to keep coming. Maintain what is already working.

- Chant Om Chandraya Namah — Monday evening — 108 times.
- Do NOT donate for Moon (Chandra) — it is the income lord; daan reduces income energy. Mantra only.

Venus (Shukra) · H11

Venus (Shukra) sits in house 11 — the house of income and gains — what comes in. It supports income — earning channels open more easily and gains come with less friction. Its element 6 (Venus) is MISSING from your birth grid, so this planet has no natural shield — its effect lands with full force. Strength 10/100.

- Chant Om Shukraya Namah — Friday morning — 108 times. This keeps the support active.
- Wear 6 Mukhi Rudraksha for element 6 (Venus) — the element is missing, so this is not optional.

Wealth Blockages

DOUBLE CRISIS: Venus + Saturn Both MISSING

SEVERE

Cannot earn AND cannot save. This is the most severe financial combination. Money comes in small amounts and leaves immediately. No wealth accumulation possible without BOTH 6 Mukhi + 7 Mukhi Rudraksha + strict karma alignment.

Remedy: Wear 6 Mukhi + 7 Mukhi Rudraksha together. Gauri Shanker if Element 2 also missing. | Vedic Check: Venus (Shukra) is Yogakarak — NO daan needed. Mantra chanting strengthens this planet. | Saturn (Shani) is Yogakarak — NO daan needed. Mantra chanting strengthens this planet.

Venus (Element 6) MISSING — Cannot Hold Wealth

CRITICAL

Primary money element absent. Earning possible but retention impossible without remedy.

Remedy: Wear 6 Mukhi Rudraksha immediately. Chant Om Shung Shukraay Namah 108x daily. | Vedic Check: Venus (Shukra) is Yogakarak — NO daan needed. Mantra chanting strengthens this planet.

Saturn (Element 8) MISSING — No Savings Discipline

HIGH

Cannot build long-term wealth. Impulsive spending drains income.

Remedy: Wear 7 Mukhi Rudraksha. Force automatic savings — transfer before spending. | Vedic Check: Saturn (Shani) is Yogakarak — NO daan needed. Mantra chanting strengthens this planet.

11th Lord Moon (Chandra) is Practical Marak — Income Blocked

HIGH

Income planet is working as Marak (H6, Aquarius). Income comes with difficulty, delays, or from wrong sources. IMPORTANT: NO DAAN for 11th lord — daan reduces income energy. Only mantra chanting.

Remedy: Chant mantra for Moon (Chandra) 108 times daily. NO DAAN for this planet.

11th Lord in 6th House — Hard-Earned Income

MODERATE

Income through service, competition, and overcoming obstacles. Money comes but requires constant effort and struggle.

Remedy: Service-oriented career path is best. Competition and legal fields can be profitable.

11th Lord in 6th House — Income Consumed by Debts

HIGH

Income lord Moon (Chandra) sitting in 6th house (debts/enemies/service). Income comes through hard service but goes directly to debt repayment. This is a structural income-to-debt pipeline.

Priority Remedies

- **RUDRAKSHA:** Wear 6 Mukhi Rudraksha — supplies Venus energy to body continuously

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

- **KARMA:** Never disrespect your wife/partner or any woman. Venus represents feminine energy — disrespecting women blocks Venus completely.
- **RUDRAKSHA:** Wear 7 Mukhi Rudraksha — builds patience and financial discipline

Karma — Financial Recovery

Venus Karma — Respect Feminine Energy

Never disrespect wife, mother, sister, or any woman. Serve women in need. Donate white items to women. This directly unlocks Venus financial flow.

Venus = feminine energy. Disrespect blocks Venus completely regardless of Rudraksha/mantra.

Saturn Karma — Patience & Service

Serve the underprivileged. Be patient with money growth. Never exploit workers or servants. Saturday daan after sunset consistently.

Saturn rewards patience and service. Exploitation and impatience block Saturn completely.

Universal Financial Karma

Never eat alone — always share food. Give 10% of income to genuine charity. Never count money at night. Keep financial documents organized and clean.

Universal principles that support all money elements regardless of birth grid.

Financial Strengths

- Jupiter (Element 3) balanced — financial opportunities flow naturally
- Mars (Element 9) balanced — strong earning drive

Property

Property Outlook

HIGH RISK

Key Earth element missing. Property decisions carry significant risk. Complete Rudraksha therapy before any major purchase.

Moon (2) — BALANCED · Home comfort, family agreement, attachment to a place

Moon (2) is balanced (50%). Family agrees on property matters and the house feels settled. The place you live in supports you emotionally, and decisions about buying or building are taken together without friction.

Mercury (5) — BALANCED · Paperwork, negotiation, registration, legal clarity

Mercury (5) is balanced (50%). Paperwork stays clean and negotiation comes naturally. You read agreements correctly, spot unfavourable terms, and close property deals at a fair price.

Saturn (8) — MISSING · Land, structure, long-term holding, clear ownership

Saturn (8) is missing. Saturn governs land, structure and long-term ownership. Without it, property tends not to stay — it gets sold under pressure, disputed, or held on unclear title. Construction and repairs run over time and cost. Remedy: 7 Mukhi Rudraksha, and keep every title document registered and clear.

Saturn/8 missing — 7 Mukhi Rudraksha required before any major property decision.

10 Health Analysis

Overall: HIGH

1 planet with CRITICAL health risk + 0 high-risk planet(s). Priority remedy for the CRITICAL planet first, then high-risk planets.

Fire Excess — Risky Zone

HIGH

Fire (Mars/9) = 150% vs Water (Sun/1) = 100%. Gap = 50% — Risky Zone.

Excess Mars-Fire continuously over-activates the cardiovascular and metabolic systems. Physical: high blood pressure tendency, body heat, cholesterol buildup, excess hunger, inflammatory conditions. Mental: anger eruptions, irritability, impatience, competitive aggression.

GOLDEN STATEMENT RULE ACTIVE — Fire (9) is the CRITICAL DOMINANT ELEMENT suppressing Moolank (5) and Bhagyank (7). Extreme Mars-Fire dominance (150%) continuously over-activates the cardiovascular system.

HIGH PROBABILITY HEALTH RISKS:

- High Blood Pressure (Hypertension) — may appear suddenly, especially during anger or stress episodes.
- Cholesterol and High Triglycerides — excess Fire accelerates lipid oxidation. The body burns resources fast but accumulates waste products in the bloodstream.
- Blood Sugar / Diabetes — excess Mars disrupts insulin regulation. Fire-dominant metabolism creates erratic glucose processing.
- Risk of Cardiac Arrest under extreme anger or physical stress — each anger episode is a measurable cardiovascular stress event for this body.
- Skin inflammation, chronic acidity, joint heat and inflammation.

MANDATORY: Daily physical exercise to burn the excess Fire — swimming is best, and gym, running or sports work equally well. Anger management is a literal cardiac health practice — not an optional lifestyle choice. Donate matchboxes on 9th/18th/27th. Always carry water bottle.

This is a preventive alarm — not a diagnosis. Early awareness and consistent remedies can prevent all of these conditions.

Remedy: Carry water bottle always — sip throughout day. Donate matchboxes on 9th/18th/27th. No heavy red or orange clothing. Consult FEAT expert — Golden Statement Fire case.

Neurological and Nervous System

MODERATE

Rahu (4) is absent. Rahu governs the neurological and nervous system framework. Missing Rahu: nervous system hypersensitivity, poor analytical processing under pressure, migraine tendency, sensory overload in high-stimulation environments.

Remedy: 8 Mukhi Rudraksha for Rahu. White chandan tilak on forehead.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

Reproductive System and Hormonal Balance

MODERATE

Venus (6) is completely absent. Venus governs the reproductive system and hormonal balance exclusively (not kidneys — that is Jupiter's domain in FEAT organ mapping). Missing Venus: hormonal irregularity, reduced reproductive vitality, cycle irregularity in women, reduced libido. Annual hormonal panel recommended.

Remedy: 6 Mukhi Rudraksha for Venus. Friday Lakshmi worship. Serve people of opposite gender.

Long-term Structural Health and Joints

LOW

Saturn (8) is absent. Saturn governs bones, joints, and teeth. Missing Saturn: slow but progressive structural weakness. Annual bone density check after age 40.

Remedy: 7 Mukhi Rudraksha. Iron kada on any hand. Saturday seva of labourers.

CRITICAL HEALTH RISK — Rahu (Practical Marak, strength 100/100). Body organs affected: Nervous system (confusion), Skin, Intestines. Element 4 (Hard Wood (Rahu)) = MISSING in birth grid — zero body shield. Risk conditions: Undiagnosed conditions, Neurological disorders, Phobias/Obsessions, Skin allergies. In Rahu Mahadasha/Antardasha: these health areas are at maximum risk.

Critical Health Windows

A Mahadasha sets the backdrop; the Antardasha delivers the effect. Only windows where both lords carry health risk are listed.

11 Food Guidance

1 · Water

EXCESS

Eat: Warm cooked foods, ginger tea, cinnamon, black pepper, cumin, light dals (masoor, moong), steamed vegetables, dry fruits (almonds soaked overnight), wheat, millets, sesame seeds, turmeric milk

Avoid: Cold water, ice drinks, chilled beverages, excessive curd, refrigerated food, cold baths

Morning sunlight 15-20 min mandatory. Avoid mental overload: excessive screen time, worrying, social media at night. Warm water baths only.

4 · Hard Wood

MISSING

Eat: Dark-coloured foods: black sesame (til), black gram (urad dal), dark leafy greens, blueberries, jamun, dark plums, raisins, dark chocolate (70%+), black cumin (kalonji)

Avoid: Overly sweet, colourful processed foods.

Fasting on Saturdays or eating only dark-coloured natural foods on specific dates amplifies Rahu energy.

6 · Yellow Metal

MISSING

Eat: White and sweet foods in moderation: white rice, coconut, white sesame, warm cow milk, dates, white butter (makhan), mishri (rock sugar), white guava, fennel water

Avoid: Excessively dry, rough, astringent foods with no fat or sweetness.

Share meals with loved ones — Venus element is deeply nourished by the pleasure of eating with family.

8 · Earth-Saturn

MISSING

Eat: Iron-rich and dark foods: black sesame (kala til), urad dal, mustard, dark leafy greens (palak), black beans, ragi (finger millet), iron-vessel cooked food, dried figs (anjeer), dates, black grapes, amla

Avoid: Excessive dairy with iron-rich meals (calcium blocks iron). Avoid tea/coffee immediately after meals.

Eating in iron or steel vessels literally supplies Saturn element through food.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

9 · Fire

EXCESS

Eat: Cooling and hydrating: coconut water, cucumber, mint, coriander, fennel (saunf) water, amla juice, pomegranate juice, tender coconut, buttermilk (chaas), watermelon, lauki (bottle gourd), sweet lassi

Avoid: Excessive salt, red chilli, black pepper in excess, mustard oil in excess, fried food, non-veg frequently, alcohol, smoking, excessive coffee, energy drinks, pickles (achaar)

High Fire people MUST exercise 4-5 times per week. Avoid arguments at night — Fire peaks after 10 PM. TIP (Somaveer Singh's food rule): In this birth grid Fire (9) is more than Water (1), so to balance the extra Fire it helps to drink one glass of amla juice on at least 2-3 days a week, regularly for at least one month. It may support hydration and metabolism, and can help one feel more aware and in control of thoughts, reactions, nature, decision-making, haste and restlessness. This is a supportive food tip, not a treatment; anyone with a medical condition, diabetes, an allergy, pregnancy or regular medicines should ask their doctor first.

12 Marriage & Relationship

Overall: AVERAGE | **Marriage outlook:** AVERAGE

Moon (2) present but Venus (6) missing — emotional bond maintained but romance and physical intimacy naturally limited. Remedy: 6 Mukhi Rudraksha + Friday Lakshmi worship.

Moon (2) BALANCED (50%) — healthy emotional connection. Natural ability to manage relationship bonds without becoming either too detached or too possessive.

Venus (6) MISSING — physical romance, intimacy, and luxury enjoyment are naturally limited. In marriage: partner may feel lack of romantic effort. REMEDY: 6 Mukhi Rudraksha + Friday Lakshmi worship.

Ketu (7) present (50%) — spiritual depth in relationships. Generally compatible with partners who value inner wisdom and intuition.

Watchful | 1 checks active

Venus (E6) Missing

The Venus element (Element 6) is missing from your birth grid. Romance, physical closeness, comfort and financial harmony — all of these stay naturally limited. In marriage the partner may feel the romantic effort is low or that the comfort side is held back. The marriage survives, but keeping warmth in it takes conscious effort. Disagreements about money are also common here, because holding money and arranging comfort are both Venus functions. If the partner has a strong Venus, the situation balances out.

Priority Remedies

- 6 Mukhi Rudraksha continuously. Friday Lakshmi puja is essential. Offer white flowers to Ma Lakshmi. And a small gift or gesture for your spouse on Fridays.

Remember — these patterns are temporary and they are in your hands. If you move forward with understanding, patience, good karma and element balancing (Rudraksha therapy and the right worship), you can handle any situation and make your marriage strong. But if you let things slide, take part in arguments over small matters, and do not keep your karma in balance, these patterns slowly become active and the problems grow. Awareness plus effort is the solution. What the chart shows is only a tendency — your daily behaviour and your karma decide the final outcome.

Love Marriage Yog

Love Marriage Yog — Present but Complicated

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

Love relationship ZAROOR banegi (SAT (5th lord) in H5 casts drishti on 7th house — aspect-based love marriage connection). Lekin marriage tak pahunchna mushkil hoga: JUP (7th lord) H12 mein — less favorable. Love hoga, attraction strong hogi — lekin shaadi ki timing aur process mein hurdles aayenge.

- SAT (5th lord) in H5 casts drishti on 7th house — aspect-based love marriage connection

5th Lord (SAT) Element Missing: Element 8 (Earth-Saturn) is ABSENT from birth grid. SAT is the planet of romance and creative love (5th house lord). When its FEAT element is missing, the body cannot properly channel romantic energy. Effect: Love attraction forms weakly — emotional depth and sustained romantic feelings are difficult to maintain. Person may fall in love but feelings fade or shift before marriage.

7th Lord (JUP) Element 3 (Soft Wood / Air (Jupiter)) is PRESENT in birth grid. Marriage-readiness energy is active — commitment and union can manifest.

Venus (6) MISSING — Love Magnetism Absent: Element 6 (Venus) is missing from birth grid. Venus governs romantic attraction, love magnetism, and marriage energy. RESULT: Love relationship may be less naturally magnetic — extra effort needed to attract and maintain partner. Romantic feelings may be present but physical chemistry and warmth need nurturing. REMEDY: 6 Mukhi Rudraksha (Venus/Element 6).

FEAT + VEDIC COMBINED: Love hoga — SHAADI ke liye extra effort chahiye. Vedic issues: JUP (7th lord) H12 mein — less favorable. FEAT element issues: Earth-Saturn (5th lord (Romance/Love)) missing — remedy recommended.

Missing Element Karma Warnings

These elements are absent from your birth grid — they have zero natural buffer, so wrong karma here triggers fast, severe consequences. Honour the karma rules to stay protected.

Missing Element 4 — Hard Wood / Rahu Karma Warning

Rahu (4) is missing from your birth grid. Analytical structure, planning ability, and technology aptitude are weak from birth.

Trigger: Impulsive decisions, dishonest business practices, or shortcuts eliminate what little Rahu stability a person with missing 4 might develop.

Consequence: Financial losses from poor decisions accumulate rapidly. Career instability becomes chronic. The pattern of "almost succeeding" then suddenly losing becomes the life experience.

Severity: FAST — Missing Rahu's bad karma creates acute financial and career shocks.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

Missing Element 6 — Yellow Metal / Venus Karma Warning

Venus (6) is missing from your birth grid. Financial stability, relationship harmony, and material comfort have no natural support. Wrong karma in this element is the fastest and most dramatic life-disruptor among all missing elements.

Trigger: Any form of physical or romantic betrayal — whether before marriage, after marriage, or through transactional intimacy — activates Venus karma immediately and severely.

Consequence: Money crisis develops suddenly and is very difficult to reverse. Married life and close relationships begin deteriorating. Financial comfort starts disappearing in ways that seem inexplicable.

Severity: MOST SEVERE AND FASTEST — Missing Venus bad karma has the most immediate and life-altering consequences. Financial and relationship collapse can begin within months.

Missing Element 8 — Earth-Saturn / Shani Karma Warning

Saturn (8) is missing from your birth grid. Patience, long-term discipline, and karmic protection from life's hardships have no natural foundation.

Trigger: Exploiting workers, cheating the poor, or living in complete defiance of discipline activates Saturn's harshest returns.

Consequence: Career becomes chronically unstable with repeated setbacks. Financial losses occur in cycles. Delays in everything important become a defining life pattern.

Severity: PERSISTENT AND LONG-LASTING — Missing Saturn wrong karma creates consequences that are slower to arrive, but once active, they are the hardest to reverse.

18 Gemstone Analysis

FEAT Gemstone Rule: A gemstone is ONLY for Practical Yogakarak planets. Wearing the gemstone of a Marak planet is strictly forbidden — it makes the harmful energy stronger. Always get the stone energised (Pran Pratishtha) by a qualified priest before wearing it. Use natural, untreated stones only.

Important Daan Rule: The planet whose gemstone you wear is the planet whose daan you must stop. Gemstone and daan together are forbidden — the two work against each other. Do one remedy at a time.

Diamond / Australian Fire Opal (Substitute: White Sapphire / Zircon) — Recommended

Venus · H11 · Cancer

Metal	Platinum / White Gold / Silver

19 Dasha & Predictions

Mahadasha — Mercury

YOGAKARAK

05-06-2020 - 05-06-2037

House	12 — expenses and spiritual growth
Sign	Leo
Lordship	1, 10
Strength	30/100

Nature of the Planet

Manoj pachauri, in your chart Mercury sits in the 12th house, and according to its position it will give results like a Yogakarak. Mercury is the karak of intelligence, communication, business and calculation. The mind works fast, your way of putting things across improves, and your understanding of accounts and business grows. Your speed of learning goes up.

Effect on the House

By nature Mercury is Yogakarak, so it makes the 12th house grow. Expenses increase - but on good and meaningful things. Work connected with foreign countries opens up, or a chance to settle abroad is formed. You go deeper into spirituality, meditation and inner practice, and being alone starts feeling like relief instead of a burden. Work related to hospitals and service also takes a good turn. But keep watching your savings - what this house grows is spending itself; however much comes in, only as much stays as you hold back.

Effect of Lordship

In your chart Mercury is the lord of 1st house (self and health) and 10th house (career and reputation). Your life has moved into the area of expenses, solitude and foreign lands. What you earn does not stay, and the mind keeps pulling towards being alone. Work connected with foreign countries or settling abroad is formed - this is where your real direction opens up. Deep interest in spirituality comes, and you need to pay attention to sleep and health.

Career has moved into the house of expenses and foreign lands. Chances of a job abroad or work connected with foreign countries stay strong - your career opens up there. Spending on work stays high and returns stay low. Work done in hospitals, service, spirituality or in solitude suits you. Ups and downs stay in your position.

Element and Lifestyle

Earth-Mercury (5) is balanced in your grid, so the body receives the energy of this period fully and the results come through openly. Just keep your mantra running. Your lifestyle risk score is 51, which is using up some of the energy of this good period. Correct those habits and the result will open up more.

Aspects

Mercury's aspect falls on the 6th house, because of which you stay stronger than your enemies, debt gets cleared, and you keep the strength to fight illness. Your place in the job gets stronger.

Eclipse Dosh and Conjunction

Your dasha planet Mercury sits with its friend Jupiter. The two natures agree with each other, so Mercury is in a healthy state - there is no conflict, and it keeps giving the results of its own placement without obstruction.

Health and External Effects

Health gets a benefit during this period - skin, the nervous system, ears, nose and throat and hands and arms stay strong. Your mobile frequency is 5, which matches the element of this very period and is a lucky frequency - it keeps supporting you quietly every day.

In Summary

Overall, this period runs on the strength of your mind. Talking, accounts and deals - all three go in your favour. Whatever you want to learn, learn it now.

Effect of the Nakshatra Lord — Sun

> Mercury sits in the Uttara Phalguni nakshatra, whose lord is Sun. So during this period you will get the results of Sun along with those of Mercury - two planets work together, and part of what is happening is because of Sun.

Nature of the Planet

Manoj pachauri, in your chart Sun sits in the 1st house, and according to its position it will give results like a Marak planet. Sun is the karak of the soul, authority, father, name and leadership. During this period the same energy comes out as ego and stubbornness. You want your way in every matter, clashes with people in authority increase, and chances of a rift with your father or elders stay.

Effect on the House

By nature Sun is Marak, so it damages the 1st house. Your body suffers first. Chances of illness, weakness or injury go up, and confidence goes down. You may also harm yourself through your own wrong decisions.

Effect of Lordship

In your chart Sun is the lord of 12th house (expenses and spiritual growth). Expenses and solitude have come directly on you. Whatever you earn does not stay, and the mind keeps pulling towards being alone. Work connected with foreign countries or settling abroad is formed - this is where your real direction opens up. Deep interest in spirituality comes. Pay attention to sleep and health.

Element and Lifestyle

Water (1) is in excess in your grid - so results do come, but they do not stay even. Your lifestyle risk score is 51, which is using up part of the energy of this period. If you correct those habits, the results of this same period will come through far more openly.

Aspects

Sun's aspect falls on the 7th house, because of which things fall short in running your life partner's matters, your business and your daily expenses. Effort in business grows a lot and results do not come the way you want. Keep full paperwork in partnership.

Eclipse Dosh and Conjunction

Your dasha planet Sun sits with its friend Mars. The two natures agree with each other, so Sun is in a healthy state - there is no conflict, and it keeps giving the results of its own placement without obstruction.

Health and External Effects

During this period take care of your health - keep an eye on the heart, spine, right eye and blood circulation.

In Summary

Overall, this period is a test of ego. Work will not stop, but if you move with stiffness, it will surely get stuck. Bend a little - that is the biggest remedy here.

Remedies

- Mercury — The element is balanced, so no Rudraksha is needed for this planet. Keep your mantra regular - that much is enough.
- Mercury — Mercury is Yogakarak, so no daan for it - only mantra. Daan for a Yogakarak planet reduces the very energy that is helping you.
- Mercury — Mantra: Om Braam Breem Braum Sah Budhaay Namah
- Sun — Daan: Every Sunday, donate wheat flour (Atta), broken wheat (Daliya), or whole wheat (Gehu) to a needy person — any one item. Also feed a potato (Aloo) to a cow every Sunday. Daily: perform Surya Arghya — offer plain water to the rising Sun every morning (no copper vessel, no river required — any clean vessel is fine). Always show respect to your father — never hurt his feelings.
- Sun — Mantra: Om Suryay Namah

MARAK

House	1 — self and health
Sign	Virgo
Lordship	12
Strength	45/100

Nature of the Planet

Manoj pachauri, in your chart Sun sits in the 1st house, and according to its position it will give results like a Marak planet. Sun is the karak of the soul, authority, father, name and leadership. During this period the same energy comes out as ego and stubbornness. You want your way in every matter, clashes with people in authority increase, and chances of a rift with your father or elders stay.

Effect on the House

By nature Sun is Marak, so it damages the 1st house. Your body suffers first. Chances of illness, weakness or injury go up, and confidence goes down. You may also harm yourself through your own wrong decisions.

In Summary

Overall, this period is a test of ego. Work will not stop, but if you move with stiffness, it will surely get stuck. Bend a little - that is the biggest remedy here.

Effect of the Nakshatra Lord — Sun

> Sun sits in its own nakshatra (Uttara Phalguni), so its results come through even more firmly, without the mixture of any other planet.

Remedies

- Daan: Every Sunday, donate wheat flour (Atta), broken wheat (Daliya), or whole wheat (Gehu) to a needy person — any one item. Also feed a potato (Aloo) to a cow every Sunday. Daily: perform Surya Arghya — offer plain water to the rising Sun every morning (no copper vessel, no river required — any clean vessel is fine). - Mantra: Om Suryay Namah

Pratyantardasha — Rahu

MARAK

28-10-2026 - 14-12-2026

House	4 — home and education
Sign	Sagittarius
Strength	100/100

Nature of the Planet

Manoj pachauri, in your chart Rahu sits in the 4th house, and according to its position it will give results like a Marak planet. Rahu is the karak of ambition, technology, foreign lands and sudden change. The same hunger turns into greed and shortcuts. Wanting to get rich fast, gambling, addiction and confusion all increase. People are not what they appear to be - the chance of getting cheated is highest here.

Effect on the House

Rahu has no sign of its own - its result is decided only by the house and sign it sits in. Here Rahu is Marak, so it damages the 4th house. Peace at home stays disturbed and your mother's health becomes a worry. Property brings disputes or loss. Vehicles give trouble and chances of accident go up. Your mind does not settle anywhere.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

Element and Lifestyle

Hard Wood (4) is not in your grid, so your power to plan carefully has been weak from birth. In this period money losses keep adding up from decisions taken in a hurry, and stability does not stay in your career. "It was almost done, and then it suddenly broke" - this pattern repeats again and again. Do not take a big decision without checking properly. Your lifestyle risk score is 51, which is using up part of the energy of this period. If you correct those habits, the results of this same period will come through far more openly.

Aspects

Rahu's aspect falls on the 8th house, because of which pressure comes on your lifespan and health. Chances of pain, surgery or long treatment stay, and obstacles grow in every work. Do not take a big risk. Rahu's aspect falls on the 10th house, because of which pressure comes on your career - chances of transfer, demotion or work getting stuck. You clash with your boss and your reputation takes damage. Rahu's aspect falls on the 12th house, because of which useless expenses eat up your savings. Sleep gets disturbed, hospital visits happen, and work connected with foreign countries hits obstacles.

Health and External Effects

During this period take care of your health - keep an eye on the head and brain, skin, the nervous system and mental confusion and illusion. And since Hard Wood (4) is not in your grid, these organs get no protection from the element - so keep getting checked on time.

In Summary

Overall, this period is about confusion. What looks shiny is not necessarily gold. Do not take any shortcut, and do not sign a paper you have not understood.

Effect of the Nakshatra Lord — Venus

> Rahu sits in the Purvashadha nakshatra, whose lord is Venus. So during this period you will get the results of Venus along with those of Rahu - two planets work together, and part of what is happening is because of Venus.

Nature of the Planet

Manoj pachauri, in your chart Venus sits in the 11th house, and according to its position it will give results like a Yogakarak. Venus is the karak of love, beauty, art, music and comforts. The pull towards love, beauty and art grows on its own. Music, decoration and good living hold your interest, and a deep attachment can form with someone. Sweetness comes into relationships.

Effect on the House

By nature Venus is Yogakarak, so it makes the 11th house grow. Income, profit and fulfilment of wishes all increase. Money comes from many sources, wishes stuck for years get fulfilled, and friends and elder siblings support you. But your wishes also grow the same way - the more you get, the more you want, so keep an eye on savings. Small health problems also increase, because this house covers those too.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

Effect of Lordship

In your chart Venus is the lord of 2nd house (wealth and speech) and 9th house (luck and dharma). Money matters have moved into the house of profit - this is one of the best placements. Many ways of earning open up, savings increase, and you gain financially through friends or elder siblings. Enough money keeps coming to fulfil your wishes.

Luck has moved into the house of profit. Luck stays with you in income - ways of earning open up on their own. Financial gain comes from your father or guru. Elders and seniors support you, and wishes get fulfilled through the strength of luck.

Element and Lifestyle

Yellow Metal (6) is not in your grid, so financial stability and harmony in relationships have no natural support. Among all missing elements, wrong karma here gives the fastest and heaviest result. In this period a money crisis stands up suddenly and becomes very hard to reverse, and married life and close relationships start breaking down. Dignity and your given word - both are your biggest protection during this time. Your lifestyle risk score is 51, which is using up some of the energy of this good period. Correct those habits and the result will open up more.

Aspects

Venus's aspect falls on the 5th house, because of which intelligence, children and creativity all get strength. Studies move ahead and love turns sweeter.

Health and External Effects

Health gets a benefit during this period - the reproductive system, ovaries and uterus, throat and facial skin stay strong.

In Summary

Overall, this period brings comfort and beauty into life. Relationships, comfort and art all stand with you. Whatever you gather, hold on to it as well.

Remedies

- Rahu — Wear a 8 Mukhi Rudraksha, which helps raise the concentration level of Hard Wood (4) in your body. The axis partner White Metal (7) is present in the grid, so this one alone will be enough.
- Rahu — Daan: Every Saturday after sunset and on the day of Amavasya, donate a packet of tea leaves and some packets of incense sticks (dhoopbatti). After sunset, take a glass of water, add blue ink and salt to it, rotate it around your head 4 times in an anticlockwise direction, then flush it in the toilet. Additionally, take one coconut with water inside (with jute covering), rotate it around your head 4 times in an anticlockwise direction, then either offer it in a temple or immerse it in flowing water.
- Rahu — Mantra: Om Raang Raahave Namah (Chant only after Sunset)
- Venus — Wear a 6 Mukhi Rudraksha, which helps raise the concentration level of Yellow Metal (6) in your body. The axis partner Soft Wood / Air (3) is present in the grid, so this one alone will be enough.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

- Venus — Venus is Yogakarak, so no daan for it - only mantra. Daan for a Yogakarak planet reduces the very energy that is helping you.
- Venus — Mantra: Om Shung Shukraay Namah / Om Draam Dreem Draum Sah Shukraay Namah

20 Doshas — Chart Afflictions

Doshas are planetary afflictions that create specific life challenges. Multiple doshas compound each other — the remedies below are protective, not optional. Per FEAT rules: Daan only for Practical Marak planets; protective Mantra for all involved planets.

Chandra Grahan Dosha

PRESENT · HIGH

Formed when Rahu or Ketu conjunct or aspect the Moon. The shadow planets eclipse the mind — causing mental disturbance, emotional instability, fear, relationship confusion, and disturbed sleep. Mother's health and marriage can also be affected.

Triggers Found in Chart

- Ketu aspects Moon (H10→H6)

Life Effects

- Emotional instability — mood swings, anxiety, depression tendency
- Mother health or relationship with mother faces challenges
- Mental peace disturbed — restless mind, overthinking
- Hormonal imbalances, sleep disorders, fluid retention
- Moon dasha/antardasha periods most challenging mentally

Remedy & Protection

Mantra Chanting — protective (all involved planets)

- **Moon:** Om Som Somaay Namah
- Somvaar vrat + Shiv abhishek mandatory. Doodh ka daan Monday ko. Chandra mantra 108 baar roz.

Surya Grahan Dosha

NOT PRESENT · Chart is Clear

Formed when the Sun is conjunct or aspected by Rahu, Ketu, or Saturn. It darkens the soul's light — causing career obstacles, conflict with authority/father, government troubles, low immunity, and activation of Pitra (ancestral) karma.

Vish Yog (Poison Yoga)

NOT PRESENT · Chart is Clear

Forms when Saturn and Moon are in conjunction or mutual aspect. Saturn's cold, karmic energy mixes with the Moon's emotional sensitivity, creating emotional poison — chronic low mood, pessimism, loneliness, and mental heaviness.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

Angarak Dosh / Yog

NOT PRESENT · Chart is Clear

Forms when Mars and Rahu conjunct or aspect each other. It creates explosive, uncontrolled aggression — accidents, impulsive decisions, anger issues, and risk of injuries. Channeled correctly, it can also give extreme ambition and achievement.

Guru Chandal Dosh

PRESENT · HIGH

Forms when Jupiter (Guru) is conjunct Rahu, or Rahu aspects Jupiter. Rahu — the outcast (Chandal) — shadows Jupiter (wisdom, dharma, guru), clouding the moral compass: wrong guidance, dishonest gurus, anti-dharmic decisions, spiritual confusion. Channeled positively, it can give unconventional, out-of-the-box brilliance.

Triggers Found in Chart

- Rahu aspects Jupiter (H4→H12)

Life Effects

- Tendency to trust wrong people — dishonest gurus, fake advisors
- Ethical judgment gets clouded — anti-dharmic actions seem justified
- Children-related challenges or unconventional family situations
- Financial decisions based on wrong advice lead to losses
- Jupiter is Marak — Guru Chandal effects intensified

Remedy & Protection

Daan — Practical Marak planets only

- **Jupiter:** Every Thursday, donate chana dal (split chickpeas) or bananas to a needy person, to a guru (spiritual teacher), or at any temple.
- **Rahu:** Every Saturday after sunset and on the day of Amavasya, donate a packet of tea leaves and some packets of incense sticks (dhoopbatti). After sunset, take a glass of water, add blue ink and salt to it, rotate it around your head 4 times in an anticlockwise direction, then flush it in the toilet. Additionally, take one coconut with water inside (with jute covering), rotate it around your head 4 times in an anticlockwise direction, then either offer it in a temple or immerse it in flowing water.

Mantra Chanting — protective (all involved planets)

- **Jupiter:** Om Graam Greem Graum Sah Guruve Namah
- **Rahu:** Om Raang Raahave Namah (Chant only after Sunset)
- Guruvaar ko Brihaspati pooja. Genuine guru ki seva. Vishnu Sahasranama roz padhein.

Pitra Dosh — Ancestral Karma

NOT PRESENT · Chart is Clear

Unresolved karma from ancestors affecting your current life. Forms due to an afflicted Sun, troubled 9th-house lord, or specific planetary patterns. Effects: career delays, troubled relationships, recurring family health issues, and progeny-related problems.

Kaal Sarp Dosh (Kaal Sarp Yoga)

NOT PRESENT · Chart is Clear

When all 7 planets (Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn) fall between Rahu and Ketu, Kaal Sarp Dosh forms. It can cause life delays, recurring obstacles, and spiritual restlessness — but also gives intense drive and eventual great accomplishment when remedied.

21 Manglik Yog / Dosh Analysis ♂

What is Manglik Dosh? When Mars (Mangal) is placed in the 1st, 4th, 7th, 8th or 12th house, Manglik Dosh can form. Mars is the planet of aggression, conflict and fire — in the houses of self, home, marriage, longevity and loss it can create friction in marriage, impulsive behaviour and domestic conflict. Many cancellation rules apply, so not every case is a concern.

MARS POSITION	PRACTICAL STATUS	FEAT ELEMENT 9
H1	**Marak**	**150%**
Virgo	Strength: 50/100	HIGHLY IMBALANCED

Theoretical Manglik (House 1/4/7/8/12 Position)

THEORETICAL MANGLIK — Mars in House 1

Mars in the 1st house — a dominating, quick-tempered personality. The spouse can feel overpowered, and accident risk runs higher. On the other side it gives strong leadership and courage.

Cancellation Rules Applied

- Mars combust by Sun in house 1 — Surya se Ast, Manglik nahi.

Practical Manglik Verdict

Manglik Dosh Does Not Apply (Practical Rule)
Mars does sit in a Manglik house, but the practical rule cancels it — it will not damage married life. A normal marriage is fine.
Why: Mars ati maarak (3rd+8th lord) — harms marriage. Manglik ACTIVE.

22 Gandmool Nakshatra Analysis

Purva Bhadrapada

NOT GANDMOOL · Chart is Clear

Purva Bhadrapada is not among the 6 Gandmool nakshatras (Ashwini, Ashlesha, Magha, Jyeshtha, Moola, Revati). There is no Gandmool Dosha in your chart — no special Gandmool Shanti is required.

23 Isht Dev — Your Personal Deity

Isht Dev is your personal deity determined by your Kundli. The Lord of the 5th House is considered your Isht Dev — the deity with whom you have the deepest karmic bond from previous lives. Regular worship of your Isht Dev is the most direct path to divine protection and fulfillment.

Saturn (Shani) — Lord Shani (Saturn)

Deity: **Lord Shani (Saturn)**

Yogakarak — Highly Auspicious Isht Dev

How Your Isht Dev is Calculated

Lagna: **VIRGO** → 5th House → Sign: **Capricorn (Makar)** → Lord → **Saturn (Shani)**

HOUSE POSITION	PLANET STRENGTH	FEAT GRID (ELEM 8)
H5	**35/100**	**0%**
	OWN_SIGN	MISSING

Isht Dev Mantra — Chant Daily (minimum 108 times)

Om Sham Shanaishcharaye Namah

How to Worship Your Isht Dev

Worship Lord Shani every Saturday — offer mustard oil to Shani deity, feed crows, donate black sesame (til)

FEAT Alert: Element 8 (Earth-Saturn) is MISSING in your birth grid. Your Isht Dev's energy is not present in your birth configuration, which makes regular worship and the Rudraksha remedy especially important for you.

Your Isht Dev is Yogakarak in your chart — maximum divine blessings are available through sincere daily worship and mantra.

24 Yogas & Rajyog

Only Practical Yogakarak planets form an active Rajyog.

FEAT Rajyog Rule: A Rajyog only activates when BOTH planets involved are in the Practical Yogakarak list. If even one planet is Marak, the yoga does NOT form. Strength of an active Rajyog = FEAT Element balance — a missing element gives null results; an imbalanced element gives reduced results.

No active Rajyog or Panchamahapurush Yoga detected in your chart based on Practical YK status and current planet positions.

The positive: lessons learned in Phase 1 and 2 now start yielding results. Discipline built during peak phase becomes your permanent strength.

Next Phase: Setting Phase (Utarta Sade Sati) starts **20-10-2027** (October 20, 2027 at 07:12 AM IST)

Remedies

Shani Chalisa Path — Daily After Sunset

Read Shani Chalisa every evening after sunset. This is the single most powerful remedy during Sade Sati. Consistency is more important than perfection — even reading once daily creates Saturn protection.

Shani Mantra Chanting — 108 Times

Chant "Om Sham Shanaishcharaye Namah" 108 times daily, preferably during evening. Use a rudraksha mala. Saturday is the most powerful day for this mantra.

Sarso Ka Tel — Shani Dev Ko Arpan

Every Saturday, offer mustard oil (sarso ka tel) to Shani Dev at a Shani temple or Peepal tree. Pour the oil on Shani idol or under Peepal tree. This directly pacifies Saturn energy.

Karma Correction — Most Important

Sade Sati is fundamentally a KARMA period. Good karma = manageable Sade Sati. Bad karma = severe results. Help the poor, serve labourers and workers (Saturn's people), feed crows on Saturday, donate black items (black cloth, black sesame, iron items) to needy. NEVER disrespect elders, servants, or physically disabled persons during this period.

PART THREE

Your Time Ahead

Year-by-year and month-by-month guidance

27 Year Scenarios

28 Month-by-Month Guide

27 Year Scenarios

Year 2026 — Water (Sun (Surya))

Domain: Communication & Career Authority

Water sits on the lighter side of its axis, and this year adds 50% to it. The two sides move closer together, and that is the direction that works in your favour. Venus is missing from your grid, so openings tend to appear without closing — the offer comes, but it does not carry through to a placement. Communication & Career Authority domain active.

Positive: Career visibility, public influence, speaking/writing opportunities, father relationship healing

Risk: Overthinking, anxiety, authority conflicts

Career: Steady: Government roles, authority positions, management, public-facing work.

Finance: Stable: Career-linked income. Sun excess brings overconfidence in finances. Sun missing causes income plateau.. Maintain existing plans.

Relationships: Stable: Father figure bond, power dynamics with superiors and authority..

Health: Water sits on the lighter side of its axis, and this year adds 50% to it. The two sides move closer together, and that is the direction that works in your favour.

Organs: Heart, Eyes, Bones, Immune System, Nervous System

Golden Statement active — Fire (element 9) suppressing your Moolank/Bhagyank. This year's Water energy operates against this background suppression.

Remedies:

• Surya Namaskar 12 rounds before 8 AM daily — directly builds Sun/Water energy
• Kapalbhati Pranayama 15 minutes daily — activates Sun energy channels
• Chant Om Suryay Namah — 108 times every morning

Water sits on the lighter side of its axis, and this month adds 50% to it. The two sides move closer together, and that is the direction that works in your favour. 30 Pro Tips & Alerts

Everything below is drawn from your own chart and birth grid. The alerts come first because they are time-bound; the Pro Tips after them are the key points of the whole report.

Alerts 10

1. Golden Element Warning

Fire stands at 150%, and this is the biggest warning the Golden Rule gives you. Here is where it shows. Health keeps wavering and tiredness sets in quickly. Confidence drops, and you stop trusting your own decisions. Ego clashes increase — friction with people starts over small things. Complaints around the head, eyes and face show up. Courage gives up exactly when it is needed. Friction with siblings stays, or distance sets in. Misunderstandings grow in conversation — what you say is read the other way. Short travel tires you out and yields nothing. Restlessness stays, overthinking becomes a habit, and low moods take over. Sudden obstacles keep appearing in life. A hidden illness gets caught late. Money is lost through routes you cannot see. Your mother's health can become a worry. Property disputes come up, or a sale or purchase gets stuck. The home stays tense and the mind does not settle. Vehicles give trouble, and the risk of an accident stays. Tension between husband and wife stays constant. It can go as far as separation or divorce, because the energy at work here is a separating one. The spouse's health or state of mind is affected. Business partnership stays risky — deals fall apart near the finish. Remedy: begin with the daan for the Fire element, so that its concentration comes down. Donate matchboxes to needy people on 9th, 18th, 27th. Serve workers and labourers with food and water. Along with it, Mars remedy: Every Tuesday, donate red-colored items such as tomatoes, red masoor dal, or red clothes to any needy person. Also take 9 dried red chilies, rotate them around your head 9 times in an anticlockwise direction, then immerse them in flowing water.

2. Heavy Antardasha

From 04 Dec 2028 to 02 Dec 2029 you run the Mercury Mahadasha with Mars Antardasha. Mars is a practical Marak for you, and its element is the one the Golden Rule marks critical — that pairing is what makes this window heavy. Mars remedy: Every Tuesday, donate red-colored items such as tomatoes, red masoor dal, or red clothes to any needy person. Also take 9 dried red chilies, rotate them around your head 9 times in an anticlockwise direction, then immerse them in flowing water.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

3. Heavy Antardasha

From 02 Dec 2029 to 20 Jun 2032 you run the Mercury Mahadasha with Rahu Antardasha. Rahu is a practical Marak for you, and its element is missing from your grid as well — that pairing is what makes this window heavy. Rahu remedy: Every Saturday after sunset and on the day of Amavasya, donate a packet of tea leaves and some packets of incense sticks (dhoopbatti). After sunset, take a glass of water, add blue ink and salt to it, rotate it around your head 4 times in an anticlockwise direction, then flush it in the toilet. Additionally, take one coconut with water inside (with jute covering), rotate it around your head 4 times in an anticlockwise direction, then either offer it in a temple or immerse it in flowing water.

4. Transit Warning

From 07 Dec 2026 to 09 Dec 2026 Moon stays in Scorpio, which is its sign of debilitation.

5. Retrograde Window

from 13 Dec 2026 to 13 Apr 2027 Jupiter stays retrograde. It is a practical Marak for you, so its effect runs against you in this window. Jupiter remedy: Every Thursday, donate chana dal (split chickpeas) or bananas to a needy person, to a guru (spiritual teacher), or at any temple.

6. Transit Warning

From 03 Jan 2027 to 06 Jan 2027 Moon stays in Scorpio, which is its sign of debilitation.

7. Retrograde Window

from 10 Jan 2027 to 01 Apr 2027 Mars stays retrograde. It is a practical Marak for you, so its effect runs against you in this window. Mars remedy: Every Tuesday, donate red-colored items such as tomatoes, red masoor dal, or red clothes to any needy person. Also take 9 dried red chilies, rotate them around your head 9 times in an anticlockwise direction, then immerse them in flowing water.

8. Transit Warning

From 10 Mar 2027 to 26 Apr 2027 Mars stays in Cancer, which is its sign of debilitation. Mars remedy: Every Tuesday, donate red-colored items such as tomatoes, red masoor dal, or red clothes to any needy person. Also take 9 dried red chilies, rotate them around your head 9 times in an anticlockwise direction, then immerse them in flowing water.

9. Retrograde Window

Right now — from 27 Jul 2026 to 11 Dec 2026 Saturn stays retrograde. It is a Yogakarak for you, so this window works in your favour — chant Om Praang Preeng Praung Sah Shanaishcharaay Namah (Chant only after Sunset) daily to draw the full benefit. Its element is missing from your grid, so increase the 7 Mukhi Rudraksha during this window — you may wear more than one for better results.

10. Retrograde Window

from 09 Feb 2027 to 03 Mar 2027 Mercury stays retrograde. It is a Yogakarak for you, so this window works in your favour — chant Om Braam Breem Braum Sah Budhaay Namah daily to draw the full benefit.

Pro Tips 25

1. Overall

Multiple energy conflicts active. Prioritize urgent actions immediately — delay worsens all predictions.

2. Practical Yogakarak (Benefic)

Mercury, Venus, Saturn. These planets support you, so keep their mantra regular — and their daan is never done. This is worked out from where the planets actually sit in your chart, not from their general nature.

3. Practical Marak (Malefic)

Sun, Moon, Mars, Jupiter, Rahu, Ketu. Their daan matters, and their gemstone is never worn. This is worked out from where the planets actually sit in your chart, not from their general nature.

4. Grid Principle

GOLDEN STATEMENT RULE ACTIVE (CRITICAL RED FLAG): Element 9 (Fire / Mars (Mangal)) is critically overloaded (count=3, concentration=150%). This element causes 95% of life problems. Remedy: DONATE items of Element 9 (Fire). Main Principle is BLOCKED by this overload.

5. Career

Multiple career challenges active. Key issues: Golden Statement active — career hijacked by Element 9; Career blockage: VERY_HIGH (70-82%). Both Job and Business Are Viable is still the recommended direction. Priority: Follow the action plan below — Rudraksha + karma correction + element balancing. This is a correctable pattern, not a permanent condition.

6. Money

Multiple financial blockages active. Immediate Rudraksha + Daan + Karma alignment needed.

7. Lifestyle

Some lifestyle patterns are working against your grid. Specific changes will make a significant difference.

8. Gandmool

Purva Bhadrapada is not among the 6 Gandmool nakshatras (Ashwini, Ashlesha, Magha, Jyeshtha, Moola, Revati). There is no Gandmool Dosha in your chart — no special Gandmool Shanti is required.

9. Health

Your chart shows 1 critical health area that needs watching every year.

© 2026 | All Rights Reserved by FEAT Theory ABC | www.feattheoryabc.com

10. Relationships
Your relationship foundation reads AVERAGE. Moon (2) present but Venus (6) missing — emotional bond maintained but romance and physical intimacy naturally limited. Remedy: 6 Mukhi Rudraksha + Friday Lakshmi worship.

11. Property
On property matters your chart reads HIGH RISK. Key Earth element missing. Property decisions carry significant risk. Complete Rudraksha therapy before any major purchase.

12. Rudraksha
Your plan needs 3 Rudraksha — 8 Mukhi, 6 Mukhi, 7 Mukhi — all on a single thread and worn 24×7. 14 Mukhi Rudraksha (Nepal) is also mandatory for your chart.

13. Karma
Your Moolank karma runs through Lord Ganesha / Goddess Saraswati, and Wednesday is the day it is built on.

14. Doshas
2 doshas are present in your chart — Chandra Grahan Dosha, Guru Chandal Dosh.

15. Manglik
Manglik Dosh Does Not Apply (Practical Rule). Mars sits in your 1 house. In FEAT terms Mars reads Marak for you.

16. Isht Dev
Your Isht Dev is Lord Shani (Saturn), and Saturday is the day to keep for that worship.

17. Planet Strength
Of your nine planets, 6 carry real danger for you — Jupiter (Guru), Rahu, Ketu, Moon (Chandra), Mars (Mangal), Sun (Surya).

18. Gemstone
You may wear 1 gemstone — Diamond / Australian Fire Opal — and only these, since a Marak planet's stone would work against you.

19. Sade Sati
Sade Sati status for your chart: Setting Phase (Utarta Sade Sati).

20. Remedies
Your remedy plan has 7 mantras to chant and 6 daans to do. Daan is only for the practical Marak planets, and mantra runs for the rest.

21. Your Numbers
Your lucky numbers are 5, 6. 4, 8 are neutral and also missing from your grid — they can be used when needed, but try to keep the lucky ones first.

22. Dates
Good dates each month: 5, 6, 14, 15, 23, 24 — keep your important work for these.

23. Food
For your Hard Wood balance — eat: Dark-coloured foods: black sesame (til), black gram (urad dal), dark leafy greens, blueberries, jamun, dark plums, raisins, dark chocolate (70%+), black cumin (kalonji) Avoid: Overly sweet, colourful processed foods.

24. Soft Wood balanced, Yellow Metal missing
Support and opportunities are there, but savings are not. Money goes on unwanted things and on family, and promotions may come through connections while the savings stay low because the spending happens for others. In business clients come easily but the money does not stay. You stay stingy with yourself and spend on others under social pressure, so the comfort you dream of never quite arrives.

25. White Metal high, Hard Wood low
The spiritual side runs far ahead of practical execution. You dream big but a realistic plan does not get made, and financial and career growth get avoided, so life stagnates even when the understanding is there.
